InclusivCare breaking ground in Marrero on new state-of-the-art medical center

MARRERO, LA (December 4, 2020) – On Thursday, December 17th at 10am, InclusivCare will be breaking ground on a new community healthcare center located at 7001 Lapalco Boulevard in Marrero, Louisiana. The 14,000 square foot facility will house a state-of-the-art community healthcare center providing a variety of medical and primary care services, dental, and a “new” in-house pharmacy. The \$4 million dollar project will bring 45 new jobs to Jefferson Parish.

Dr. Shondra Williams, CEO of InclusivCare said, *“We are excited to keep InclusivCare in Jefferson Parish and in the community of Marrero. The state-of-the-art community healthcare center will offer a variety of healthcare services to patients of all ages, in a beautiful new building that is well-deserved for our patients and the community.”*

Due to COVID 19, there will be a short program with remarks from key stakeholders. The number of visitors will be limited to 25 participants using safety precautions in which mandatory masks and social distancing will be required.

Along with the groundbreaking in Marrero, InclusivCare has seen tremendous growth in Jefferson Parish and recently was chosen by the U.S. Chamber of Commerce as the 2020 Winner of the Community Support and Leadership Award due to its COVID-19 community initiative through testing and tracing. A large-scale vaccination strategy is underway.

InclusivCare is a Nationally Accredited Health Center by Joint Commission and NCQA Certified. Our mission is to provide quality, affordable, healthcare to everyone. InclusivCare also provides transportation services to its clients who need transportation to one of InclusivCare’s four locations in Avondale, Kenner, Marrero, or Lafitte.
